

# NEW, LESS INVASIVE BLADE

for the SmartRelease® Endoscopic Soft Tissue Release System

## Onyx™ LOW PROFILE BLADE ASSEMBLY

### CARPAL + CUBITAL INDICATION

FDA cleared for endoscopic carpal and cubital tunnel release procedures.

NEW from MICROAIRE®

# Onyx™

LOW PROFILE  
BLADE ASSEMBLY

To learn more,  
contact your local  
MicroAire  
representative.

## SHARPER BLADE

Sharper blade than the standard blade assembly.

## SMALLER SIZE

Better for smaller, tighter carpal or cubital tunnels.

## SCRAPER TIP

New scraper tip assists with cleaning the tenosynovium.

## IMPROVED CONTRAST

Black color absorbs light for improved tissue contrast.
